

## KOVALEVSKAYA GRANTS TO ATTEND THE ICM

**Kovalevskaya grants.** The Australian Mathematical Society is calling for applications to the Kovalevskaya grants scheme.

Kovalevskaya grants are aimed at early career mathematicians to support their attendance at the International Congress of Mathematicians, to be held in Saint Petersburg on 6–14 July, 2022.

Upon submission of receipts, each successful applicant will receive an amount of \$1,500, to be used towards travel to and from Saint Petersburg. Additionally, the local organisers will waive registration fees, provide meals and accommodation in Saint Petersburg for the duration of the congress, cover local transportation costs, and arrange for visa-free entrance into Russia.

**Eligibility.** AustMS members who, on 1 January 2021, have had no more than the equivalent of eight years of full-time employment in academia since the awarding of their PhD (or equivalent) are eligible to apply. PhD students who are members of AustMS and who have passed their confirmation are also welcome to apply.

Periods of career interruption should not be counted towards the eight years, and part-time employment should contribute proportionally.

**How to apply.** Applicants can submit their application to the AustMS Secretary, Deborah Jackson, at [Secretary@AustMS.org.au](mailto:Secretary@AustMS.org.au) no later than 1 February 2022. Each application should consist of a cover letter (one page maximum), an up-to-date CV (including a list of publications) and one letter of recommendation in support of the application. The letter may be sent directly to the Society by the letter writer or be included in the application.

**Announcement of successful applicants.** The Society expects to announce the Kovalevskaya grants by the first of March, 2022.

**Sponsorship.** The Kovalevskaya grants are sponsored by the Australian Mathematical Sciences Institute (AMSI), MATRIX, the Sydney Mathematical Research Institute (SMRI) and AustMS. Successful candidates may be requested to make representations on behalf of these organisations at the ICM.

**Contact.** For queries regarding the Kovalevskaya grant scheme, please contact Deborah Jackson at the above email address.
